Create your own original survey...

We are encouraging schools to create their own survey, making up new questions and answers that are fresh, more relevant to their school or town and current lifestyle trends of today's youth.

You can always use one of our standard questionnaires, or create a "custom" questionnaire using questions already in our database. But, creating your very own, using unique, original questions and answers, might be more fun and encourage greater student participation resulting in a more successful fundraiser.

Here is fine print:

1. The survey must be on a single page -- 8.5 x 11.
2. No more than 30 questions and now fewer than 20.
3. Each question must have five answers from which to choose.
4. Put the questions at the top and one of our answer grids at the bottom.
5. If you can't fit all your questions on one page, you can put additional questions on the back side of the questionnaire, and distribute a 2-sided page to the students.
6. All questions must not use any profanity, racial or ethnic slurs, sexual connotations, or vulgar language.
7. The faculty advisor must sign the survey.
